

## "The Ottawa Spotlight"

By Wilfrid Eggleston

Ottawa, Sept. 15th. The federal government has decided to launch a drive on unemployment by means of a housing campaign, the National Employment Commission, after considering the various aspects of unemployment in Canada, was much impressed by the fact that about one-half of the unemployed in Canada were connected in some way with the building industry. Some business leaders, in fact, say that only two months' outdoor work stand in the way of complete recovery for Canada. One is, the discouraging low level of building activity, and the other is, the drought losses of this summer.

Whether this is true or not, it is quite evident that if building activity could be raised to its pre-depression levels, work would be found for several hundred thousand people, either in the construction industries, or one of its allied activities, or in other lines of trade to supply the new army of the employed.

It was these considerations which led the National Employment Commission to stress this possible way out of the depression for Canada. And, beginning in some centres at once, the idea is:

1. To guarantee lending institutions so that loans can be made cheaply to persons wishing to paint, decorate or rehabilitate their homes. The cooperation of municipalities will be necessary for it to succeed so will the help of the banks, the construction companies, and the welfare and service clubs of the country. It is hoped to launch a fifty million dollar rehabilitation campaign.

2. A low cost housing scheme to be initiated, by cooperation between the Dominion, the provinces and the municipalities. This will call for some government subsidies, as the average worker cannot afford to pay the rent of the kind of house he should have, according to studies made in various centres.

3. An enlargement of the present Housing Act, so that it will get under way and really accomplish something.

The farmer, at last, is being rewarded. Under the first two hours of the program, the rural resident is to be given the same consideration as those who dwell in the cities.

Several Obstacles  
There are several "ifs" about the scheme. One question is whether the average homeowner can afford to borrow, even if it is made so cheap, to improve his present dwelling, or if he is already carrying all the load possible, he won't be able to take advantage of the scheme, even with low interest rates.

Another question is: will the municipalities co-operate by exempting such a man from extra taxes for one year or two at least? What would many people back from improving their property is the knowledge that if they do, taxes, which are high enough already, will rise some more. Still another is: will the dealers in lumber and other raw materials in building, the trades union and all the other factors entering into the cost of a house, co-operate by reducing their services at the lowest figure they can?

The high cost of housing, the high cost of money, and the high level of taxation, these are the three big log-eyes which have driven the average building down to such low levels. In the first seven months of 1935, residential construction contracts awarded were valued at \$22,300,000, in 1928 and 1929 thousands at that time of the year were \$45,000,000 and \$31,000,000 respectively.

No wonder there are reported to be 80,000 houses short in Canada, and at least another quarter of a million not really fit to live in.

These obstacles are met in a small measure by the proposed legislation.

A. T. A. MEETING AT CARLELAND  
About fifteen teachers attended the A. T. A. meeting held in Carleland Tuesday evening. Some interesting and profitable discussions took place on questions of special importance to teachers.

Rev. F. Porter gave a thoughtful address on the subject of War, and its cost.  
The next meeting will be held in Nanaka October 20th at 8 p.m.

announced last week. Money rates, at least, will be cheaper. But the municipal and private interests have to make some contribution toward the other difficulties, it would appear, before a big forward drive can be expected.  
The goal, however, seems to be working for it. If 250,000 persons could be reabsorbed into construction and allied industry, and as many more drawn into other industries to look after the workers' new needs, not much can be done till next year, but a few experimental projects will, here and there, be started.

## A CAMPAIGN OF FALSEHOOD

The opponents of the present method of grain marketing are using every weapon of abuse and misrepresentation in endeavoring to discredit the grain trade, to force their own policies upon the country and to obtain an unfair advantage for the Pools at the country elevators for wheat.

THE FOLLOWING FACTS ARE TRUE:  
1. The Western Pools are and have been, since their inception, members of the Winnipeg Grain Exchange. They continually use the facilities of the Exchange for the benefit of their customers.

2. When representatives of the grain trade were called upon to give advice to the Dominion government in 1925 concerning the establishment of a Wheat Board, they agreed, as the first condition, that they advised the Government to appoint a Wheat Board, to provide a minimum price for the protection of farmers and to use every available channel to market Canadian wheat and to maintain Canada's place in the wheat markets of the world.

3. On the same occasion, the Dominion Government, on the contrary, the grain trade realized keenly that the prosperity of agriculture is essential to the well-being of the Dominion and of all its industries, including their own.

4. It is the interest of the grain trade that the farmer should obtain the best possible price for his product and the maximum Government support in the hour of his need. The interest of the grain trade is not that of the wheat pool, but that of the grain grower, on the contrary, the grain trade realizes keenly that the prosperity of agriculture is essential to the well-being of the Dominion and of all its industries, including their own.

5. No fine elevator company, any more than a Pool elevator company, designs to make profit out of the fluctuation of grain prices, they are determined by numerous causes that are not and cannot be controlled by the grain trade, the Wheat Board or the Pools.

6. As has been stated before on numerous occasions, in the plainest possible terms, the grain trade and the Winnipeg Grain Exchange have made no representations to the Government against the fixing of a high minimum price nor in favour of the dis-establishment of the Wheat Board or the curtailment of its activities.

THE FOLLOWING QUOTED STATEMENTS ARE FALSE:  
1. The Western Producer, which is the organ of the Saskatchewan Pool, states in its issue of September 15, 1936, that: "The Government has decreed the death of the Wheat Board and thereby has complied with the express desire of the grain trade. THIS IS FALSE. The grain trade has expressed no such desire."

2. The same paper, in the same issue, states: "The work of a gentleman is to be settled by the present intentions are carried out next year, and for many years thereafter, the farmers, if they have a crop, are to be thrown to the wolves by the grain trade." This statement is merely abusive and its implications libellous. If it is intended to mean that the members of the grain trade, which comprises all the elevator companies, the Pools, the millers and merchants, both foreign and domestic, who compete for the sale of the Western Canadian crop, are bent on the purpose of depriving service to the producer but to prejudice his interest, this statement is not only false but must be known to be false to the editor and owners of this paper.

3. The following statement is contained in a circular forwarded to various organizations throughout the Dominion by the Saskatchewan Provincial President of the Co-operative Commonwealth Federation: "The Government, by setting the pegged price at 87¢, fails and Nor. Port William. Tie to the farmer—has taken money from you and given it to the grain exchange." This statement is false and can only be based upon extreme malice.

## INTERESTING DETAILS OF VIMY PILGRIMAGE

R. W. Henderson and S. G. Pelley of the Alberta Provincial Commission Cabaret, R. T. S. L., guests of the Strathmore Branch meeting held last Thursday, gave a most interesting account of their trip to France to attend the unveiling of the Vimy Memorial. Details which did not appear in the press were told, the humorous incidents giving much merriment.

The hustle and bustle of getting the passengers on board and seeing the almost more than those in charge could cope with. One male was amazed to find less than two of the top of the ship, strangers to him, assigned to his cabin, and a member of the gentler sex raised objections to having a man she had not been introduced to claiming her berth. The lady who got that scarce noose on a rat on the ship was given the comforting assurance by the purser, "there were millions aboard."

Billeting in France left much to be desired. Instructed to stay at the Hotel Europa, the best hotel in one of the towns, the guests arriving late at night found the place had been closed for some time by the police. On another occasion one of the hoteliers who evaded the walls of the hotel by having the advantage of carrying training said he had no difficulty in securing good quarters. All the other guests at the best hotel in the town, his credentials as pilgrim, and he never failed to be accompanied with the best. Transportation by bus was the best of all who desire and work for had been commended by the French Government in view of the tense situation in Spain, and a strike of bus drivers added to the confusion. But they got around and saw all the trip called for even if they had to do their own driving, for the amateur bus drivers had the annoying habit of returning to the starting point in a remarkably short time.

The unveiling of the Memorial was most impressive. Its cost was more than justified by its magnificence. In the words of the sculptor this altar in stone "gives something beautiful to the world." As guests at the King's garden party at Buckingham Palace, they had the run of the place, the floor of the Palace, and greatly admired the fine paintings and valuable collection of postage stamps.

The difference in the manner in which traffic is handled in the two capitals. In Paris, horn blowing is the motorist's chief delight. It was most striking to observe the reverence paid this monument to the fallen. All jostling and their respect.

France, is worthy of the men who gave their lives for it. And, as a protest in a quiet way against the brutality of war, may make men regret that humanity has to go to war instead of being proud of it.

Around Vimy Ridge, shell holes, most overgrown by grass could still be seen. The thing one missed the most was the infernal snarl. The trenches with sand bags and duck boards now made of concrete and on a clean and neat, gave the notion to those who had not been "over there," that the war had been a nice clean affair. To see the fine newly built towns and roads, the sense that they had been rebuilt by the generosity of some town or other in Great Britain, made one pause and make comparisons. It was a relief to find one standing event was the reception and address by Premier Stanley Baldwin in Westminster Hall. A gathering of the thousands of the war, the most filled the building with an equal number outside. What a change the years have made. This beautiful town, the most beautiful of the war, a wonderful pool of finely carved oak, constructed close on a 1000 years ago, was electrically lighted and had installed a public address system. All attending were struck by the fine outstanding personality of the Premier.

The closing words, "If the world—this that evolved the walls of the world—other way of setting their disputes than by way of war, even now when we are still finding and buying stones of the place, the fall every year, if they can find no other way, then the world deserves to perish," found a echoing response in the fallen. All jostling and their respect.

## LARGE NUMBERS VIEW

Citizens from Strathmore and near by, gathered at the station in large numbers Thursday last, attracted by the courteous invitation of the C. P. R. officials to view this latest effort in the engineering of the C. P. R. The name "Chinook" is a very happy choice. The interior of the train most attractive in its comfortable appointments, its air filled corridors, and air refrigeration.

The almost noiseless approach of the train and smooth even departure were most favorable features, some of the gentlemen making the trial trip from Medicine Hat to Calgary confessed they were quite willing the engine should "show up a bit" after the test of 100 miles per hour.

The general public is grateful for the opportunity afforded by the C. P. R. officials of viewing this latest achievement in man's invention.

### DEMOCRACY AND DIPLOMACY COMBINED IN BRITAIN'S KING

King Edward on his recent vacation tour through the South Eastern countries of Europe looked the personification of an unofficial, democratic man, garbed in the most up to date style of short-sleeved summer sweaters, apparently throwing all the cares of state aside, as he strolled, moved or swam according to the mood of the moment. Between these diversions the democratic King becomes the keen and diplomatic King discussing with his officials and those of the countries he visits questions of great concern for the welfare of each. That the personal participation in these discussions, and a closer contact thereby established is all to the good is indisputable. These with their discussions carried on with other rulers as suggested by President Roosevelt, backed up by thousands of people the world over, should establish a system of fair dealing, and understanding of the other countries' problems and grievances, that should make for fair and amicable settlements, knowing the facility, liberality and bitter hopelessness of war.

Despite the seething and disturbed rumblings, unfortunately new so general, we believe "It can be done."

### EDITORIAL NOTES

Alberta's Next Lieutenant Governor  
Col. P. C. H. Primrose, a graduate of the Royal Military College, Kingston, was a member of the N.W.M.P. for thirty years, later police magistrate of Edmonton for twenty years. He served in the North West Field Battalion. In 1888 the Klondike gold rush took him to Dawson City. He was born in 1861. He has had a colorful career in Western Canadian life and will be a popular appointee to Government House.  
Mrs Primrose is one of Edmonton's most charming hostesses. They have two daughters. Dr. R. B. Doane of Calgary is a brother of Mrs Primrose.

Unanimous approval of the fitness of the appointments of Mr. L. W. Brockington, K. C. as chairman of Radio Board of Governors and of Mrs. Nellie Metling to the Board is being expressed.  
Mr Brockington's ability to fill this post is almost phenomenal. He will continue his position as solicitor for the Western Grain Association which appointment he received about two years ago.

## LOCALS

About forty young people from Cheadle and Strathmore gathered in the Cheadle Hall Monday evening at a social evening arranged in honor of Vernon Miner, son of Mr. and Mrs. Roy Miner. An interesting informal programme of games and music was arranged, the Gilbert Quartette contributing several much appreciated selections. Choice refreshments were served following which Vernon was presented with a fine Club Bag by those present. Dancing completed a very happy evening. Jeannette Craner and Jesse Grant were the committee arranging the evening. Vernon left Tuesday for San Diego, California where he will stay with his uncle Harold Jenkins, formerly of Strathmore.

Mr. and Mrs. John Hickey, nee Shirley Hirtle are leaving September 24th for Sackville, N. B. for an extended stay.

Norman Taylor was able to return to his home Tuesday after two weeks in the Calgary General Hospital.

Mrs. Wagstaffe has had as her guests her mother Mrs. Sallis of 1941

Teddy Schulte, Wilfrid Archibald and Don Nicholl are leaving Sunday for Edmonton to attend the University.

Mrs. T. V. Wright returned Monday from a very enjoyable visit with friends in Edmonton and vicinity.

We are very sorry to learn that Mrs. Amanda England is still suffering from a severe attack of sciatica. She has been in Calgary taking treatments for the past four weeks. Miss Eleanor England is staying with her mother. We hope for a turn for the better soon and relief from the pain.

Miss Marion Ruppe left Sunday for Toronto where she will enter second year in Toronto University.

## MAINE'S MONDAY ELECTION

It is a more or less accepted theory in the U. S. that the election in Maine indicates the trend of the Presidential result.

If this be true in 1936, the position of President of the United States is to be filled by a new occupant and the crown of honor and responsibility pass from President Roosevelt to Governor Landon. We shall wait and see what lies in the laps of the gods.

## ALBERTA'S NEW EDITOR

Mr. P. C. Galbraith who was associated for a number of years with the late G. M. Bell has been appointed Editor of the Calgary Alberta.

## NEW PAVEMENT

The new pavement on the Memorial Hall - United Church Block is a fine improvement. Could we have more much more, without having the tax-so skyward, we would all say, "let there be more sun!"  
Mr. S. Hirtle and his corps of helpers have made a very neat job.

## CARD OF THANKS

Mr. and Mrs. Elmer Lowe and family of Loughlin wish to thank their friends and neighbors for their many kindnesses and expressions of sympathy extended them, during their recent sad bereavement. In the loss of their daughter.
